

Kalam Sha K

Chennai, India +91 87785 09185 — alkalamsha335@gmail.com

PROFILE

Final-year B.E. CSE student with experience in AI/ML, Full Stack Development, and Data Analytics. Skilled in Python, FastAPI, and Machine Learning with hands-on experience in building real-time prediction systems. Passionate about developing scalable applications and solving real-world problems.

SKILLS

Programming: Python, JavaScript, PHP, SQL, HTML, CSS

AI/ML: CNN, Machine Learning, Data Processing

Frameworks: FastAPI, REST APIs

Data Tools: Power BI, Pandas, NumPy, Matplotlib

Databases: MySQL, MongoDB

Tools: Git, Apache, XAMPP

Concepts: Data Structures, Agile, System Design

EXPERIENCE

Data Science & Analytics Intern — Future Intern Aug 2025

- Built Power BI dashboards for real-time KPI insights.
- Processed and visualized CSV/SQL data using Python.
- Automated reporting workflows using Pandas.

Full Stack Python Developer Intern — Retech Sep 2025

- Developed Event Registration & Ticket Booking System.
- Implemented authentication and backend workflows.
- Tested and deployed locally using Apache.

Web Application Intern — NLC India Limited Oct 2025

- Built Complaint Tracking Portal using PHP and MySQL.
- Designed database schema for issue tracking system.

PROJECTS

Smart Parking Prediction System using CNN (Final Year Project)

- Developed a CNN-based system to predict parking availability.
- Built backend APIs using FastAPI for real-time data handling.
- Implemented slot booking and QR-based entry system.
- Designed scalable architecture for smart parking solutions.

Medical AI Prediction System

- Developed AI-based model for predicting health conditions.
- Applied data preprocessing and machine learning algorithms.
- Improved prediction accuracy using optimized models.

Complaint Portal (PHP, MySQL)

- Built web-based complaint management system with CRUD operations.
- Implemented status tracking and database integration.

Spam Email Detection (ML)

- Developed machine learning model for spam classification.
- Achieved improved accuracy using text preprocessing.

EDUCATION

B.E. Computer Science and Engineering

Jeppiaar Engineering College

2022–2026

GPA: 7.8

Higher Secondary (+2)

Mount Park Hr. Sec. School

2020–2022

90%

CERTIFICATIONS

Python for Data Science — NPTEL

Python — Udemy

SQL — Udemy

Full Stack Web Application — NLC

Power BI — Future Intern

LANGUAGES

English, Tamil, Urdu
